

Department Head News & Updates:

I am pleased to announce the appointment of Dr. Andrew Borchers as Interim Head of the Business Department effective immediately. I am especially confident that Andy's work will benefit our ACBSP Accreditation.

I know that Andy will provide leadership and continuity to the Business Department following Dr. Dave Strubler's return to faculty. I have the deepest appreciation for Dr. Strubler and his excellent service for the past year.

Dr. Stacy Seeley has been appointed and has been serving (since July 1) as the new Interim Department Head of the Chemistry / Biochemistry Department. Dr. Seeley is taking on this new responsibility while continuing her role as Premed Coordinator.

Dr. Lucy King has agreed to continue her Interim Department Head appointment for another year.

Please also join me in congratulating Dr. John Geske - Computer Science, Dr. Leszek Gawarecki - Mathematics, and Dr. Bahram Roughani - Physics who are now the department heads of their respective departments, no longer the interim department heads.

Please join me in extending best wishes and support to Andy, Stacy, Lucy, John, Bahram, and Leszek on their appointments.

Michael Harris, Ph.D.
Provost and Vice President for Academic Affairs
