

Kettering University Intramural Sports Cleanliness Rating

At the end of each contest Intramural staff will assign a cleanliness rating to each team and their spectators. This process is used as a tool to ensure that the recreation facilities are kept at the highest possible standards and preserve the aesthetics of the areas. The rating is described below:

4-excellent, no trash remaining

3-acceptable litter, maybe a water bottle or fast food bag

2-unacceptable litter, multiple items left, food bags, water or Gatorade bottles, ect.

1-completely trashed, excess garbage, almost intentional

Teams must maintain a 2.5 average to advance to the playoffs. Any rating given of a 1 or 2 will result in the team captain meeting with the Director of Intramural Sports. Recreation Services may make necessary administrative decisions to adjust criteria for management of the sport.
