Preventive Care Benefits: Free Preventative Services

Most health plans must cover the following list of preventative services without charging you a copayment or coinsurance; this is true even if you haven't met your yearly deductible. This service applies only when these services are delivered by a network provider.

**Adults**
- Abdominal Aortic Aneurysm one-time screening for men of specified ages who have ever smoked
- Alcohol Misuse screening and counseling
- Aspirin use to prevent cardiovascular disease for men and women of certain ages
- Blood Pressure screening for all adults
- Cholesterol screening for adults of certain ages or at higher risk
- Colorectal Cancer screening for adults over 50
- Depression screening for adults
- Diabetes (Type 2) screening for adults with high blood pressure
- Diet counseling for adults at higher risk for chronic disease
- HIV screening for everyone ages 15 to 65, and other ages at increased risk
- Immunization vaccines for adults—doses, recommended ages, and recommended populations vary:
  - Hepatitis A
  - Influenza (Flu Shot)
  - Tetanus, Diphtheria, Pertussis
